IV. Short answer questions.

1. How did Veena know that her mother had cooked halwa?
2. Why we should not read in the dim light?
3. What is Braille?
4. Name the 5 sense organs.
5. Which kind of people use sign-language?

V. MCQ

1. People who cannot see at all
   a) deaf   b) blind   c) dumb
2. A special type of raised writing.
   a) Braille   b) optician   c) special computer
3. Dim light or very bright light will spoil our
   a) ears   b) eyes   c) nose

VI. Answer the following.

1. Mention 3 ways to take care of our eyes.
2. Who are visually challenged people? How can they overcome this problem?

3. Who is an optician and what is his work?

4. Discuss how we can help the visually challenged people any 3 points.

Chapter - 3
WORK PEOPLE DO

I. True or False

1. The Indian government made to laws to prevent child labour.

2. A doctor examines and gives us medicine.

3. People work not to earn money.

4. At home, parents and children share work to be happy and comfortable.

5. I board the train from bus stop.

II. Who am I?

1. I till the field, so crops may grow well.

2. I drive a bus.

3. I do all the household work.

4. I deliver the letters.

5. I go to school every day.

Chapter - 5
PLANTS OUR FRIENDS

I. True of False.

1. The stem of a tree is called trunk.

2. Tulsi and mint are some common medicinal plants.

3. Cactus and date palm are found in mountain areas.

4. We breathe in impure air and give out oxygen.

5. Toor dal, moong dal and massor dal are some cereals.

II. Fill in the blanks:

1. Broccoli and lettuce are vegetables brought by ....

2. Some plants are kept indoor and they are called .... plants.

3. Moulds and mushroom are .... green plants.
4. Alexander Fleming discovered .... which is commonly used medicine.
5. Plants which cannot stand straight on their own are called ....

III. MCQ.

1. Rise and hibiscus are some common
   a) climbers   b) herb   c) shrub
2. They are found growing along the coastal line.
   a) Coriander   b) Coconut   c) Cocoa
3. We get .... from plants to breathe.
   a) carbondioxide   b) oxygen   c) sunlight
4. It catches insects between the leaves ....
   a) moulds   b) sundew   c) venus fly tap
5. It is consider as spices.
   a) neem   b) turmeric   c) rice

IV. Short answer questions.

1. Name two things made from coconut tree.
2. Name 3 fruits which come from far off places.
3. Why climber need support to climb up?
4. From where do the non green-plants get their food.
5. Mention any 3 non-green plants. From where do they their food?

MATHS

Chapter - 1

PLACE VALUE

I.   Fill in the blanks.

1.   The place value of 5 in 8526 is ....

2.   The numeral for 3000 + 900 + 40 + 3 is ....

3.   Use the correct symbol (<, >, =)

      395 [   ]   3895

4.   The numbers that can be put into pairs are called .... numbers and the numbers that cannot be put into pairs are called .... numbers.

5.   The smallest 4 digit number is ....

6.   999 + ... = 1000

7.   The expanded form of 7924 is ....

8.   The numeral for six thousand is ....

9.   7249, 7259, 7269, ..., ...

10.   The greatest 4 digit number is ....

11.   The numeral for nine thousand four is ....

12.   The number after 8999 is ....

13.   The place value of 0 in 6019 is ....

14.   2600, 2700, 2800, ..., ...

15.   The number before 3081 is ....

16.   .... hundreds make 1 thousand.

17.   The smallest 4 digit number and the greatest 4 digit number using the digits 1, 8, 9, 4 is S = ..., G = ...

18.   There are .... hundreds in 6729.

19.   349 is a .... number (even, odd)

20.   The greatest and the smallest 4 digit number using different digits are S = ..., G = ...
II. Do as directed

1. Circle the biggest number and cross the smallest number

   4873   8290   6413   211

2. Complete

   6 8 7 9

3. Arrange in descending order.

   4561, 2943, 1536, 8729

4. Give the place value of the underlined digit in two ways.

   5469

5. Arrange in ascending order

   7319, 5426, 1090, 2641

6. Round to the nearest 10

   a) 42   b) 59   c) 85   d) 92

7. Make the greatest and smallest 4 digit number using the digits 0, 8, 5, 1

8. Complete with tens

   39 is between .... and ....

9. 1 more than 3848 is .... and

   1 less than 3746 is ....

10. Write in words and also expand it 7064

11. Write 5 numbers in sixties which will round to 70.

12. Write all odd numbers from 20 to 40.

13. There are 44 students in your class. Teacher wants to give sweets to all

of them. Should she round the number to the smaller or bigger ten while buying the sweets?

14. Find the number which is 1000 more than the greatest 3 digit number.

15. Complete

No.	10 more than	10 less than	100 more than	100 less than	1000 more than	1000 less than
8219						
4572						

Chapter - 2
ADDITION

I.   Fill in the blanks.

1.   20 + 80 = ...

2.   Answer in addition is called ....

3.   5090 + ... = 5090

4.   The numbers that are being added are called ....

5.   7000 + 1000 = ...

6.   45 + 12 = 12 + ...

7.   5425 + ... = 5426

8.   10 more than 4584 is ....

9.   3600 + 1 = ...

10.   7519 + 0 = ...

11.   32 + 146 = ...

12.   Arun had a collection of 29 paper bookmarks, 43 cloth bookmarks and 90 books. How many bookmarks did Arun have in all?

13.   100 more than 544 is ....

14. 84 + 101 = ...
15. 10 hundreds = ... thousand.
16. 15 tens + 10 ones = ...
17. 91 more than 9 is ....
18. If you add 1 to the largest 3 digit number you get ....
19. 4 thousand + greatest 2 digit number is ....
20. If O is added to 4599, the answer will be ....

II. Do as directed:

1. A grocer sells 50 apples and 25 oranges. How many fruits did he sell in all?

2. Add the following.

a)	842	b)	2461	c)	600
	+ 153		+ 1025		+ 200

3. Amal had 51 stamps. His friend Akhil had 31 stamps. How many stamps did they have altogether?

4. Solve

a)	6120	b)	5142	c)	212
	+ 1120		+ 1122		122
					+ 111

5. 100 people watched a movie on monday and 700 people watched it on tuesday. How many people watched the movie on both the days?

6. Reghu had 85 marbles. His sister had 29 marbles. How many marbles do they have in all?

7. Add the following

a)	337	b)	279	c)	268
	+ 256		+ 452		+ 938

8. There are 79 fishes in a tank. Abhay added 17 more. How many fishes are there in the tank now?

9. Solve

a) 5410
  + 2389
  _____

b) 3722
  + 4007
  _____

c) 389
   202
 + 364
  _____

10. A movie theatre sold 173 boxes of popcorn at the first show and 59 boxes at the second show. How many boxes of popcorn were sold altogether?

11. The school canteen sold 149 juice cans, 56 sandwiches, 82 burgers and 29 samosas on the first day of school. The same canteen sold 101 juice cans, 23 sandwiches , 18 burgers and 10 samosas on the second day of school. How many burgers were sold in all?

12. Adith has a collection of 59 stamps. Ajay has 18 more stamps than Adith. How many stamps does Ajay have?

13. Find the sum of the greatest 3 digit number and the smallest 2 digit number.

14. According to a census, there were 451 females in a town. The number of males is 236 more than females. What is the total population of the town?

15. A man plucked 105 mangoes from a tree and 75 mangoes from second tree, out of which 35 where ripe. How many mangoes did he pluck in all?

Chapter - 3

SUBTRACTION

I.   Fill in the blanks.

1.   The answer in subtraction is called ....

2.   80 – 50 = ...

3.   10 less than 146 is ....

4.   5429 – .... = 5429

5.   8675 – 1 = ...

6.   125 – 25 = ...

7.   8000 – 1000 = ...

8.   543 – .... = 542

9.   747 – 0 = ...

10.   645 – 645 = ...

11.   100 less than 749 is ....

12.   710 – 127 = ...

13.   1000 less than 1542 is ....

14.   Difference of 2048 and 0 is ....

15.   8 tens – 6 ones = ...

16.   If you subtract 1 from the smallest 2 digit number you get ....

17.   3 hundreds – 1 hundred = ... hundreds

18.   If 200 is subtracted from 700, the difference will be .....

19.   1556 is 1 less than ....

20.   Subtract 2 tens from 5 tens.

II.   Do as directed

1.   Devi had 57 crayons. She gave 18 crayons to her sister. How many crayons are left with her now?

2. Subtract the following

a)   573
   − 241

b)   481
   − 260

c)   812
   − 612

3. Before the post office opened on Monday morning there were 80 packs of stamps. At the end of the day, there were 53 packs of stamps left. How many packs of stamps were sold on Monday?

4. Solve:

a)   798
   − 469

b)   875
   − 194

c)   8746
   − 1225

5. There are 4559 students in a school. If the number of boys is 2429, find the number of girls?

6. Out of 180 seats in a theatre. 128 are filled. How many seats are empty?

7. Subtract the following:

a)   500
   − 239

b)   418
   − 289

c)   607
   − 348

8. 580 people are standing in a queue for taking tickets to see a movie. 29 people buy the tickets and leave. How many people are in the queue now?

9. The sum of two numbers is 2100. If one of the number is 100 . Find the other number.

10. Anil has ₹9200 in the bank. He withdrew ₹4000. How much money is left in the bank?

11. Out of 727 students in a school. 348 were absent on a rainy day. How many students attended school?

12. Subtract the smallest 4 digit number from the greatest 4 digit number.

13. There are 668 cars in a car park. If 183 cars are driven out and 37 cars are driven in. How many cars are there now?

14. Find the difference between the largest and smallest 3 digit numbers formed using the digits 3, 0, 5.

15. 295 girls and 262 boys took part in the national music competition. How many more girls than boys took part in the competition?

Chapter - 8
SHAPES, SPACE & PATTERNS

I.   Fill in the blanks.

1. The flat surface of a solid shape is called its ......

2. A circle has .... corners and .... sides.

3. If we trace the outline of a coin we get a ....(square, triangle, circle)

4. A .... is where two edges meet.

5. A dice is an example of a .... (sphere, cone, cube)

6. A cuboid has .... edges.

7. The .... is where two faces meet.

8. A triangle has .... corners, ... sides.

9. A football is an example of a ....

10. A cone has .... faces.

11. Opposite sides of a .... are equal.

12. A birthday cap is an example of a ....

13. For a ...., all four sides are equal.

14. Identify the shape

Black Board

a) circle   b) cone   c) rectangle

15. A circle has .... corners.
16. A cone has .... edges, ... corners and .... faces.
17. Tubelight is an example of a ....
18. Battery is an example of a ....
19. The number of sides for a match box is ....
20. If we trace the outline of your scale, we get a .... (Square, rectangle, circle)

II. Do as directed:

1. Draw any 2 solid shapes and name them.
2. Draw the lines of symmetry.

3. Draw any 2 plane shapes and name them.
4. Draw a square and write any 2 properties of it.
5. Identify the shape

   It is a ....
   It has .... edges, ... corners and .... faces

6. Match the following:

   Shape   Object
   Cylinder   Dictionary
   Sphere   Road roller
   Cuboid   Globe
   Cube   Dice

7. True or false
   a) The corner is where two edges meet.
   b) A circle has no corner and no sides.

8. Complete

Shape	Edges	Faces	Corners
Cuboid			
Cone			

9. Which of the following has a curved surface?

    a)   b)   c)

10. Which is a spherical object?

    a) ball   b) book   c) pencil

11. Match the following.

    Cylinder   football

    Sphere   pipe

    Cuboid   matchbox

    Cone   birthday cap

12. Look at the object carefully and then match

    Name of the shape is   8

    Number of edges   dice

    Number of corners   6

    Number of faces   cube

    Example of the given shape is   12

13. Draw the line of symmetry.

14. Look at the object carefully and then match

    Name of the shape is   1

    Number of edges   Birthday cap

    Number of corners   Cone

    Number of faces   1

    Example of the given shape is   2

15. True or false

    a) A cylinder has 3 edges.

    b) A sphere has 2 corners.
